**Advance Training in Spoken English
Instructions to the Participant Students**

Dear students

Hope you are fine.

We proposed to start an **Advance Training in Spoken English** particularly for those who have completed the training given by TCS under Youth Employability Program.

30 days henceforth we will strive to improve your skills in English language, most particularly that of spoken English. This will help you to communicate during your interviews, group discussions, presentations, etc. in accurate English with a lot of confidence.

In order to identify your present knowledge of English language we have conducted a test which was responded by almost all students, and except a few, all of you have shown fair knowledge of English language. Those who have not done well, we will plan to initiate a program of improvement of the English language, with the primary focus on grammar. Good news is that, they will also be allowed to participate in this **Advanced Training of Spoken English**, irrespective of their marks.

Dear students I should make it clear that this is a complete online training to be conducted on Google classroom. In the Google classroom you will daily receive the study material which will include documents, audios, videos and sometimes links of video.
